"Divine Daze Of Deathless Delight"

Seek ye the mystery through all this energy
To set your soul bird free from deathless delight.
There are so many ways, forms upon which to gaze,
Live in a divine daze of deathless delight,
Deathless delight, deathless delight.
There may be so many, many pains,
Till of old the golden goal you gain.
Out on the lonely road you began long ago,
No other way to show deathless delight,
Deathless delight, deathless delight.
Deathless delight
Deathless delight
Deathless delight.
I have had some tingles in my time,
Never dreaming them to be a sign, be a sign.
Out on the lonely road living a warrior's code,
Everywhere thine abode of deathless delight,
Deathless delight, deathless delight
