"Give It All Up"

No gold worth digging for
Without your golden love
No treasure rich enough
To be without your love
No sorrow deeper than
To be away from you
No distance farther than
A night not spent with you
No diamond brighter than
The light within your eyes
No star I gaze at
Brighter in these skies
No sadness deeper than
This longing for you
I'd give it all up
To be with you
This night of darkness
I lay upon my bed
All alone and lonely
Remembering words you said
No goal worth striving for
Without your golden smiles
Never again we'll part
No more the lonely miles
