"Lay Down Lassie"

Visit "[Lay Down Lassie](#)" on MotoLyrics.com

Remember when I first met you
Took you to the pad where I was staying
Shared with another seven souls
All over the floor laying

Remember when I first held you
I whispered you sweet nothings
We flew out of the room that night
High on young love wings

When you lay down your brown
Body Lassie
Let love between you and me flow
When you lay down your brown
Body Lassie
Let love between you and me flow

Remember when I first saw you
I had to put our love together
By hook or by crook
I wanted you forever lover
But I shouldn't be so lucky
For you had another fella
So I brought you a ring that day
Down the Portabella

Chorus:

Temporarily I lost you
Tried to tie our love together
Forcing you to answer me
Say you'll be mine forever
But things don't happen so fast
When it comes to our romance
I wanna take you easy now
So come on gimme the chance

Chorus
