When two lovers touch hands
They touch the two of them touching hands
They touch the one of them in the space between
As each the other's hand doth touch

When two lovers kiss lips
They kiss the two of them kissing lips
They kiss the one of them in the space between
As each the other's lip doth kiss

Two lovers
Two lovers
Two lovers, two lovers
Two lovers

When two lovers hold each other
They hold the two of them holding each other
They hold the one of them in the space between
As each the other holds

Two lovers
Two lovers, two lovers
Two lovers, two lovers
Two lovers
Two lovers
Two lovers, two lovers
Two lovers, two lovers
Two lovers
