it wasn't you, it wasn't me my friend  
and i don't know but it feels like the end

why don't you tell me (3x)  
what went wrong, what went wrong  
and don't you think we could work it out tonight

where'd you go  
this world we've grown, don't tell me it's gone  
it's just a bend in the road but this road always goes on

why don't you tell (3x)  
what went wrong? what went wrong?  
and don't you think we could work it out tonight.  
don't you think we could work it out, yeah.  
don't you think we could work it out tonight

you don't wanna see me  
you don't wanna talk on the telephone  
i wanna see you, it's just that i don't wanna see you go.  
don't wanna see you go, no

why don't you tell me (3x)  
what went wrong, what went wrong  
and don't you think we could work it out
