Scattered thoughts keep runnin through my head.
I keep thinking 'bout all the wrong things that I said.
Didn't mean to bring you down with me,
I'm so stupid cause I'll never let things fade.

Take me away..[x2]

I don't understand all the things you say.
Your words steal my head, they're pushing me away.
Don't understand all the things you do.
You're out to break me down and get me over you.

Take me away..[x2]

(I'm tryin all I can now, to get away from you now.
I'm tryin all I can to get away from you)

I'm tryin all I can now(now)..to get away from you(you)

Take me away..[x2]

(I'm tryin all I can now, to get away from you now.
I'm tryin all I can to get away from you)
