[verse#1]

The years have gone by  
and i still think of u.  
Couldnt sleep at night,  
I was just thinking what to do.  
All i wanted was to see that u cared,  
but wen the time was right,  
U were never there.  
Tonight i saw u and i knew this day would come,  
I wanted to show u that im really not that dumb.

[verse #2]

look at me looking better than u ever did  
i wanna show u something that i know we never had  
even tho i tried i couldnt walk away  
couldnt say things i really had to say to you ..anymore  
but im trying not try... anymore.  
trying not to try.

[verse#3]

been waitin for this moment for too long  
and i want it so bad but i know its wrong  
why cant u feel the way i do for u  
why do i keep holding on..

Trying.... Im trying not to try  
Trying...Im trying not to try
