Well remember when it became so hard
When did things start to fall apart
You would call me and we'd talk about it
But will I have to dream about it yet

Live along the way, live along the way
So tell me that you'll stay, tell me that you'll stay
Live along the way
Tell me everythings ok and you feel the same

Now it seems like somethings in our way
How can I make you wanna stay
It's me and you and I close my eyes
So take a chance don't say goodbye

Live along the way, live along the way
So tell me that you'll stay, tell me that you'll stay
Live along the way
Tell me everythings ok and you feel the same

Live along the way, live along the way
So tell me that you'll stay, tell me that you'll stay
Live along the way
Tell me everythings ok and you feel the same

Sometimes I wonder where
Just where we really are
How did we find our way
How did we get this far
Sometimes I wonder where
Just where we really are

Live along the way, live along the way
So tell me that you'll stay, tell me that you'll stay
Live along the way
Tell me everything's okay

Live along the way, live along the way
So tell me that you'll stay, tell me that you'll stay
Live along the way
Tell me everythings ok and you feel the same

Live along the way, live along the way
So tell me that you'll stay, tell me that you'll stay
Live along the way
Tell me everythings ok and you feel the same

Live along the way, live along the way
So tell me that you'll stay, tell me that you'll stay
Live along the way
Tell me everythings ok and you feel the same

Everything that changes
I'll still feel the same
And even if you're different
I won't care
