Ahh babe
Ahhhh bay-bay-bay

[Verse One]
I can tell that we share the same attraction
From the vibe you gave off
The feeling I got was easy to read
That this things for real not a make believe
What we have is chemistry
There's no turning back
This moments like a meant-to-be
I swear it almost felt like love

[Chorus]
You got me caught, I'm love sick
Head over heels and I can't help it
So I can't get enough of you
Girl you got me digging you
Like you just the way you are
Girl let me breathe you
I just can't get enough
Coz with you I just get caught up
Coz there's no one else like you
Girl you got me digging you
Like you just the way you are
Girl let me breathe you

[Verse 2]
Can't describe
Your something to adore is what you are
You're so delicate you belong with the stars
And I admire you in every way
You've won a special place in my heart
You're the air that I breathe
You're the joy that's brings love to me
You got me feeling you, till I'm passionate
And I never wanna let you go

[Chorus] [x3]
You got me caught, I'm love sick
Head over heels and I can't help it

So I can't get enough of you
Girl you got me digging you
Like you just the way you are
Girl let me breathe you
I just can't get enough
Coz with you I just get caught up
Coz there's no one else like you
Girl you got me digging you
Like you just the way you are
Girl let me breathe you
