I just wanna give you everything you need
But I can't get you to love me
I think about you every minute constantly
Do you even think of me
Cus everytime that I try
To wipe the tears you cry
All you do is just hurt me
And if you give me one chance
Give me your hand
It would fit so perfectly but

You wont let me into your heart
You just keep closing up
I just wanna love you
You tell me you're out of love
Girl you're stone cold
Stone cold
Stone cold
Stone cold

I would climb up the highest mountain peak
If I thought you could see me
Girl you make me wanna be all I can be
Now you gotta believe me
Cus if you only knew
What I would do
Just to turn the grey skies blue
But I can't be your fool
It's not what I'm into
Girl I just wanna love you

You wont let me into your heart
You just keep closing up
I just wanna love you
You tell me you're out of love
Girl you're stone cold
Stone cold
Stone cold
Stone cold
I can't make it up and I'm sorry for what you went
through then
How can I repair your heart if you wont let me in

Girl you're stone cold
Stone cold
Stone cold
Stone cold

Just know
That nothing else can get in the way of our love
Be careful not to give it away
Were so close
And I don't wanna throw it away
Love me now before it's too late

You wont let me into your heart
You just keep closing up
I just wanna love you
You tell me you're out of love
Girl you're stone cold
Stone cold
Stone cold
Stone cold
I can't make it up and I'm sorry for what you went
through then
How can I repair your heart if you wont let me in
Girl you're stone cold
Stone cold
Stone cold
Stone cold
