Wohoww, woohoww, wohoww

I never meant for you to leave & go far away (no)
& I hate that I caused you so much pain
I'm hurting now
Everywhere I go, I'm facing dark clouds
Barely holding on, I'm fading out
I pushed love far away
It has travelled further than I can go

I committed suicide
Ever since she left me it feels like my life is reckless
out of control
I committed suicide
I'm cursed without a conscience & I'm dying cuz my
guardian angel is gone (cold?)
I've committed suic
I don't know, I don't know
I've committed suic (whow)
I don't know, I don't know
I've committed suic (whoow)
I don't know, I don't know
I've committed suicide (whow)
Committed suicide (whoow)

I just jumped off a bridge
& lost the better half of me (whow, yeah)
Turned my back on love
& I feel like a bird without a wing (oohw)
Oh, I'm hurting now
Wish I could go back & slow time down
I would turn that frown into a smile
I wish I could show you how much I've changed
I'd do anything to get it back

I committed suicide
Ever since she left me it feels like my life is reckless
out of control
I committed suicide
I'm cursed without a conscience & I'm dying cuz my
guardian angel is gone (cold?)

[Suicide Lyrics On]
I've committed suic
I don't know, I don't know
I've committed suic (whow)
I don't know, I don't know
I've committed suic (whoow)
I don't know, I don't know
I've committed suicide (whow)
Committed suicide

I regret the day she left me behind
Why did I waste our precious time
How can I betray the gift that God has given me (oh no)

I committed suicide
Ever since she left me it feels like my life is reckless
out of control
I committed suicide
I'm cursed without a conscience & it feels like my
guardian angel is gone
I've committed suic
I don't know, I don't know
I've committed suic (whow)
I don't know, I don't know
I've committed suic (whoow)
I don't know, I don't know
I've committed suicide (whow)
Committed suicide (whow)

I regret the day she left me behind
Why did I waste our precious time
How can I betray the gift that God has given me
