Its killing us
killing us

????

And try to save it
But i guess you thought different, girl
Somehow we still, ran into traffic
And outside is pouring, girl
I'll put my chop on the line for you
but you never kept your promised and stay true
And the light we used to have started to dim, started
dim out

I been hiding me feelings for you
And we both been avoiding the truth
And it hurts cuz its ripping me apart,
Cuz the pain is piercing right through my heart
Now i really wanna make it work
I dont wanna see you hurt
Cuz we both know it aint no use
So we need to come to a truce
Or its killing us
[Truce Lyrics On]

At the beggining i wasnt perfect, nobody's perfect
Tangled around, use your kidness for a weakness
Never thoguht it woudl come back to me
But after its said and done
Girl we accomplished nothing
Its a shame we have to pick and fight over nonsense
We need to work this out

I been hiding me feelings for you
And we both been avoiding the truth
And it hurts cuz its ripping me apart,
Cuz the pain is piercing right through my heart
Now i really wanna make it work
I dont wanna see you hurt
Cuz we both know it aint no use
So we need to come to a truce
Or its killing us

We need to get it together before its too late, girl
Cuz i hate to see someone else in my place
I dont wanna carry the sad truth
Cuz i cant stand to erase you
Why cant we turn back the hands of time, and save
ourselves

I been hiding me feelings for you
And we both been avoiding the truth
And it hurts cuz its ripping me apart,
Cuz the pain is piercing right through my heart
Now i really wanna make it work
I dont wanna see you hurt
Cuz we both know it aint no use
So we need to come to a truce
Or its killing us
