[Verse 1]

Girl, put yourself in my shoes
I never meant to hurt you
I know this gotta seem rough
But it ain't all my fault
Yes I laid her down, but I
It wasn't me, I apologize
I don't know what I was thinking,
Cause I never meant for you to go away

[Chorus]

(Under the Influence)
And I just can't explain this emotion
Cause I guess I was caught up, Under the Influence
(Under the Influence)
And it's crazy how you left, won't take me back
Girl hear me out, it wasn't my fault, I was Under the
Influence
(Caught up under the, caught up under the) Caught up
under the Influence
(Caught up under the, caught up under the) Caught up
under the Influence
(Caught up under the, caught up under the) Caught up
under the Influence
(Caught up under the, caught up under the) Caught up
under the Influence

[Verse 2]

Now I'm, sitting at the edge, tryna make it
Can't fight the sickness, can't take it
I Need your love so i can breathe
It's not the same without ya
I'm sittin at home without ya
Why is everything blurry?
I can't function, I can barely think
I feel so bad you left because of me
Going in circles, I don't know,
Which way should I go?

[Chorus]

(Under the Influence)
And I just can't explain this emotion

Cause I guess I was caught up, Under the Influence
(Under the Influence)

And it's crazy how you left, won't take me back
Girl hear me out, it wasn't my fault, I was Under the
Influence
(Caught up under the, caught up under the) Caught up
under the Influence
(Caught up under the, caught up under the) Caught up
under the Influence
(Caught up under the, caught up under the) Caught up
under the Influence
(Caught up under the, caught up under the) Caught up
under the Influence

[Verse 3]

It's spring and I'm singing, Thoughtless
I can't see the sunshine, I'm fading
I'm Dying
I'm hurting, I'm Crying, I can't see the sunshine
I'm trapped in this darkness
I'm Dying

[Chorus]

(Under the Influence)
And I just can't explain this emotion
Cause I guess I was caught up, Under the Influence
(Under the Influence)
And it's crazy how you left, won't take me back
Girl hear me out, it wasn't my fault, I was Under the
Influence
(Caught up under the, caught up under the) Caught up
under the Influence
(Caught up under the, caught up under the) Caught up
under the Influence
(Caught up under the, caught up under the) Caught up
under the Influence
(Caught up under the, caught up under the) Caught up
under the Influence

(The) (Caught up under the) Influence
(Caught up under the) (Caught up under the) Influence
(Caught up under the) (Caught up under the) Influence
(Caught up under the) (Caught up under the)
Under the Influence...
