Come here, come here back girl, oho oh  
Come here, come here back girl, a... baby  
Come here, come here back girl, oho oh  
Come here, come here back girl, oho oh

All I need this time that I let you know, what I feel  
It's been on my mind, for a while  
I'm just trying to get you for real, baby  
I can feel it this way, worst is can't explain  
How I feel about you baby,  
I just can't live without you  
I've been waiting so long, and I can't hold on  
Cause I want you close and I'ma never let you go

Come here girl, come here girl, come her girl  
Cause I wanna talk to you  
So won't you  
Come here girl, come here girl, come her girl  
I got something to say to you

Come here girl, come here come here come here girl  
Want you to  
Come here girl, come here come here come here girl  
I need you girl  
Come here girl, come here come here come here girl  
Want you to  
Come here girl, come here come here come here girl

You're... girl, can I act like you're not the one I need  
We both share the same, same things  
That's what brought you closer to me  
I've been feeling it this way, worst is can't explain  
How I feel about you baby,  
I just can't live without you  
I've been waiting so long, and I can't hold on  
I need to know I gotta hold you close

Come here girl, come here girl, come her girl  
Cause I wanna talk to you  
So won't you  
Come here girl, come here girl, come her girl  
I wanna say something to you

Come here girl, come here come here come here girl  
Want you to  
Come here girl, come here come here come here girl  
I need you  
Come here girl, come here come here come here girl  
I want you to  
Come here girl, come here come here come here girl,  
yeah, yeah  
Come here girl, come here come here come here girl  
Want you to  
Come here girl, come here come here come here girl  
I want you to  
Come here girl, come here come here come here girl  
I want you to  
Come here girl, come here come here come here girl,

Come here girl, come here girl, come her girl  
Cause I wanna talk to you  
So won't you  
Come here girl, come here girl, come her girl  
I got something to say to you

Come here girl, come here come here come here girl  
Want you to  
Come here girl, come here come here come here girl  
I need you  
Come here girl, come here come here come here girl  
I want you to  
Come here girl, come here come here come here girl
