Yea, yeah, yeah
Yea, yeah, yeah

That's a need a spark light
Your body looking so right

Girl, you're killing me hitting here
That's why you keep getting me stress
The stress looking pretty long
You should let me take you home
Baby, you already know what it is?
So, let's have baby games
You'd be happy, but girl you cane
Hold up, wait a minute
You should let me get opinion
So girl let's leave this club
Let me give you, some ugly thought
Waste my bootie, wait bigger
You should come here with a nigga

Lay your head back
Let's getting in
Girl, let me be you homie
Love for free
Pick you up, but giving to the in
When you are down, go home to your man
Lay your head back
Yea,
Lay your head back
Yea,
Lay your head back
Yea,
Lay your head back
Yea,

Girl, I'm glad that you are under these covers
You can be my destined lover
Girl, we're just freaking
We can do this every week-end
Girl, you got me up and here like yea
Let me put your legs in the air

Baby, you already know what it is?

Lay your head back
Let's getting in
Girl, let me be you homie
Love for free
Pick you up, but giving to the in
When you are down, go home to your man
Lay your head back
Yea,
Lay your head back
Yea,
Lay your head back
Yea,
Lay your head back
Yea,

Boom, baby I like that
Don't move girl, keep it right there
Girl, don't you find it, don't you hide it
Girl, just take care
Deeper and deeper I'll go
Keep up with my tempo
Grant my pillow, great my pillow aid
Lay your head back

Lay your head back
Let's getting in
Girl, let me be you homie
Love for free
Pick you up, but giving to the in
When you are down, go home to your man
Lay your head back
Yea,
Lay your head back
Yea,
Lay your head back
Yea,
Lay your head back
Yea,
Let me give that shouting.
