Week by week, day by day  
you got me changin' in so many ways  
Thinking of you I feel the call  
Somebody get a doctor  
I'm starting to fall

I get excited don't you understand  
I get excited 'cause it's part of the plan

Day by day, hour by hour  
I get a shiver from your lovin' power  
The fire in your eyes just lets me know  
ain't no way I ever let go

I get excited don't you understand  
I get excited 'cause it's part of the plan

Hot love, what you bring to me  
I get excited by the novelty  
Hot love, like a fever you feed  
black lace and promise is all that I need  
You bring it on

I love it baby, I love it all  
Anytime, anytime you call  
Day or night as the world moves on  
it's time for action, the talkin' is done

I get excited don't you understand  
I get excited 'cause it's part of the plan

Hot love, what you bring to me  
I get excited by the novelty  
Hot love, like a fever you feed  
black lace and promise is all that I need  
You bring it on
