"Things take a turn for the worse"  
"Send him back where he came from"  
"We got shots fired down the street"

[Doom]  
Ba-di-yahhhh...  
"Alright, steady"  
Ba-di-yah, ba-di-yah

Absolute power corrupts absolutely  
If they get the Villain surrounded {\*AHEM\*}

Good to the last drop nigga  
Hood 'til the last pop them bigot-ass piglets  
Go for the bosses, dicks or higher  
Beatwalker still get caught up in the crossfire  
Get at the sarge, he give the orders  
The rest of them punks'll quit the force or get  
slaughtered  
Use stealth, play alleys, jet  
We'd rather not alert them gnomes and federales, yet  
Keep the local random cases in each state  
Escape to the beaches for the season and be straight  
You on call, keep your Nikes on tight, no white  
Anybody tell get lighted on sight  
The ringer's on a need-to-know basis  
No persons, places, things and no faces  
Get bagged, you're on your own, act it alone  
Back home your fam'll be provided for while you're  
gone  
It's a price on all snitches  
If you nice bring back eyes fingers toes and pictures  
Send copies to those who singin the blues  
Mothers and fathers who's unjustly accused  
Our species is in danger  
Wear gloves and strike in a city where you a stranger  
That'll let them fools know  
And send them a message, let them P.O.W.'s go  
Absolute power corrupts absolutely  
Now you have your orders, do your duty  
A new way to let the shot spray  
A few drops a day, double espresso, D.A. latte

No smell nor taste, hardly traceable  
Wait to waste a prosecutor, maybe get the case pulled  
Learn 'em a lesson for givin bros mad stressings  
A long list of C.O.'s names and addresses  
A fake judge for many years on the bench  
Who sent some good cats to the chair, who erred in the  
trench  
They say her tongue was teared out, smeared and  
drench  
The whole system scared in doubt in a fear stench  
And she was tortured, some say post mortem  
The suspect took his own life before they caught him  
It's real spooky like a real trife movie  
Remember the part where Terminator killed Tookie  
Absolute power corrupts absolutely  
If they get the Villain surrounded, son this year  
Shed blood, some'll be shaken  
Just look with they head in the mud, red flood

"Villain"

[Outro]

One of the things we ran into the unknown  
We we couldn't get at the door pulled as quick as we  
wanted to  
And once we did, finally pull the door and breach the  
interior door  
There's a man trapped inside of it  
Basically that man trap is a cage  
'Fore we run in, we're stuck in there and they can shoot  
us  
While we're just, we're stuck in a cage
