Drowning slowly
I can't breathe
Pain takes over
It's all for me
Breaking silence
Who is to blame?
Losing power
All remains the same (here)

Your secrets are safe with me
Finally free from what I need
Maybe I am just alive
Leave a life of sin with desire
Now take me higher

My direction
It's all I have
Bleed for nothing
F***ed up plan
I know my crime
Paid my due
Will I ever find
Peace of mine? (With you)

Your secrets are safe with me
Finally free from what I need
Maybe I am just alive
Leave a life of sin with desire
Now take me higher
