It's so easy
To be bruised completely
All too easy
If you need it
Follow my way
Walk beside me
Come with my way
If you want it

When the lights not low and
I'm the one who knows it
I am
Better loose than you're hard tied
You would breathe and you'll be alright

No one hears you
Outside your room
I can hear you
But it's easy not to
If I leave
Am I free?
If I leave
Am I free?

When the lights not low and
I'm the one who knows it
I am
Better loose than you're hard tied
You would breathe and you'll be alright
I am
When the lights not low and
I'm the one who knows it

You bleed
You lose
You lose
You lose
