Full speed out of the tracks with
Regrets and pain
I live and learn or I might end up
The same
What goes around comes around
If you hide you'll be found
Gave my blood gave my soul
Time will show the end of your road
If you walk alone
You better get it on

Lay down your hands when you're on
The last round
After dark days poison rain will

Fall down
What goes around comes around
Hide and seek and you'll be found
Gave my blood gave my soul
Time will show the end of my road
I'll take control
And I'll get it on

I decide it
I'm all alone
I will make it
On my own
How low we go
I should have known

I won't take no more lies
