Step right up, get in line  
Your time is running out  
Hurry up and meet the end  
We're whoring the reaper out  
Death disguised as glamour  
All your desire is yours  
We'll sell you your mortality  
You'll jump in the fire willingly  
Rotter eating your soul from the inside out  
Rotter paying for premium death  
You're falling apart and content  
You're dying and we're getting rich  
You're fucked up beyond all repair  
We're laughing cause we sent you there  
Death disguised as glamour  
All your desire is yours  
Buy a ticket to your grave  
You jump in the fire willingly  
Rotter eating your sol from the inside out  
Rotter paying for premium death
