

Black Clint "I'll Take Texas"

Visit "[I'll Take Texas](#)" on MotoLyrics.com

There's no reason I should go
When I really want to stay
There's no place that I know
I'd go to anyway
If ya ask me, I'll take Texas any day

There's folks who travel 'round
Ain't no place they will stay
And never can be found
Anywhere but on their way
But you can find me here in Texas any day

There's everything and more than you could hope to
find
From the sandy beaches to the mountains and the
pines
My mind's got room to wander
But my heart will never stray
And you can find me here in Texas any day
There's no reason I should go
And you really ought to stay
By now you've got to know
There's only one thing I could say
If ya ask me, I'll take Texas any day

There's everything and more than you could hope to
find
There's miles of smilin' faces all just one of a kind
My mind's got room to wander
But my heart will never stray
And you can find me here in Texas
I'll be right here in Texas
If ya ask me, I'll take Texas any day
