DESSA

I took it for a kiss, but it couldn't have been, could it? / I
see now what
It is, we were just biting the same bullet / You called it
in the air / it
Landed it on it's edge / when the crowd gathers around
/ you turn tail / I
Turn heads / Shaving down the puzzle piece / tryna
make a clean fit / Take
What is lovely / leave before the rain hits / It's a
heartbreaker for
Starters, as you age not too much changes / practice
doesn't make perfect,
Just makes the game more dangerous

STEF

Start repo / negative sleep nauseous / barf party for
sure / intelligent
Creep stalking awkward / Flush flustered rush for doors
/ advance fire-plan
/ handy with the way out / routes explored / Cover
catching up / careful
With your care / We don't go there, naw / We keep locks
and keys steadily
Swallowed / never be followed, none of em dare /
Channel up your anger
Leave it here / kindly disappear / Mind your
mannerisms / I can't be
Flattered back / The patterns the concern / lessons
prolly turned to fact /
By now you'd surely drown yourself before you'd help
me with this sail /
I'm in the wind / crossed fingers for the win / Up to ten
til they hammer
In the very last nail / Challenging like every last
stalemate / Deal with
It / No mission ends / Precision lack of friends / Happily
recommend
Nothing to no one, ever

CECIL (Hook)

I know, I know / I know wake up, wake up / But I don't go

there, go there /
She knows the way home

CECIL

You know your way home? / You gonna be all right? /
Yeah, but I had faith
That you'd see the light / and ride with me or kiss me
goodbye / Now you
Got me feeding kites into the night sky / Covered them
with nightlights,
Like, did you see the beacon? / I swear I let those kites
fly around all
Weekend, no? / Well someone must have cut the lines
or something, no? / Or
Maybe something, oh, you weren't looking / Ok Plan B
just panic / run up
The stairs and shut the door to the attic and don't come
up for air / until
You're torn from her fabric completely... / and just like
magic, you're all
In one piece again / But, I'm nothing like I used to be... /
elusive and
Reclusive / Now I'm just both times a hundred...
exclusively / Truthfully, I
Was blind to the deep end / until that piece of us went
and died that
Weekend (Hook)

SIMS

Then it flashed forward, but I asked for it / Rip out the
doubt, I'm way
Too south / I gulped it up, I laid back / peeling off the
layers / the
Mantra saying "fear can't stay here self see you later" /
Fire chakra
Dissolve to ether / I have to meet her, I know she knows
the way / I'll
Have to die twice, no Novocaine / See the Eye of
Horace, I am Osiris / I
Meet the devil, it ain't the first time / He kills me quick
like I am
Nothing / Scream St. Peter, I need you now cousin / I
see the owls coming,
They float me safe / I learn their grace, they help me
heal / I'm under
Stars peeling off my skin to rid my scars / it's the first
time I am
Reborn, but I am not me / No identity, and I am finally
free / I am my
Brother, I am my father / I am the sun, I am the water / I
am an ion, I am

Everything / I am the vapor, a cloud of smoke / I am a
cheap laugh, but I
Get the joke / I am a brief flash, the abstract
