

Dopamine "Disorder"

Visit "[Disorder](#)" on MotoLyrics.com

It's not a case of time may tell, don't believe anyone at
all
It's nothing to do with what you think if you ever think at
all
Your one more injection close to hell and section 2
can't here you call

Don't feel the same way.....not yet

I know a story that is just too true to tell
I heard your dopamine receptors don't work very well
I ache, i scream, i shake
but i will not be told
'cos i am made of gold

Got a haunting melody trapped in your illusion
What a place land of the free a state of intrusion
A passion for every side of me, i live for your
amusement

Don't feel the same way.....not yet

I know a story that is just too true to tell
I heard your dopamine receptors don't work very well
I ache, i scream, i shake
but i will not be told
'cos i am made of gold

Sick Lie Future (top)

What if i had stayed to save myself, would you mind

What if this was done in self defence would you mind

What if i had stayed and just played dumb, on your
side

What if this was more than self pretence, sick lie future
calling me

Need you, warning, never going to catch you falling
Bleed you, swarm in, sick lie future calling

What if i had taken everything, would you mind

What if i had choosen not to stare, sick lie

Need you, warning, never going to catch you falling
Bleed you, swarm in, sick lie future calling

And I feel like i'm missing something
