"Leave Luck To Heaven"

Visit "[Leave Luck To Heaven](#)" on MotoLyrics.com

Your looking for answers that I can not give to you, I'm
sorry if I hurt you
Trapped inside this lonely room, do you notice me?
I stand alone singing to nobody at all -
pretending its alright
If I care for you then why am I here on my own -
pretending its alright
I've had sometime to work this out but I can't think by
myself
Now that evrythings alright for a while, for a short while
I stand alone singing to nobody at all -
pretending its alright
If I care for you then why am I here on my own -
pretending its alright
Alone staring at these 4 walls
I stand alone singing to nobody at all -
pretending its alright
If I care for you then why am I here on my own -
pretending its alright
