I dont know what makes me hard for you
I dont know what I'm about to do, yeah
I dont need this anymore
My head is broke my eyes are sore
And man you wated everything
I never wanted anything from you

What can I do, I dont need you
Now that it's through what will I do
Whats it to you, I can hate too
Thats what I'll do, What about you

I dont know what makes me come for you
I dont knw theres nothing left to do, yeah

Sometimes we all make mistakes
I've made my share I can relate
I've taken all thatl can take

I gave my all, so here's goodbye to you

What ca I do, I dont need you
Now that its through, what will I do
Whats it to you, I can hate too
Thats what I'll do, what about you

Some will live and some will die
You never listen, nevermind
I couldnt give this one more night
And when you're gone I'll still be tired of you

What can I do, I dont need you
Now that is through, what will I do
Whats it to you, I can hate too
Thats what I'll do, what about you
