I have granted user rights to configure
A colossal system shock like you never ever heard
Now a malware is right to break into your plant
Ready. Bingo. Counting down for the blackout

I have granted user rights to configure
An enormous system shock like you never ever had
Now a malware is right to break into your plant
Ready. Bingo. Counting down for the blackout
Ready. Bingo. Counting down for the blackout

You think I am kidding so
Why don't you go
Into the dark road
Whooo

Darkness coming
Not for your b-day
Just a present to say
"Look there a breach into your net"
It's a "no way" note to keep into your heart
If you don't, be ready for another black out
If you don't, be ready for another black out
