Losin' sleep almost lost my mind
Feel my veins squeezin' me so nice
Sexy junkie, hey sexy fix
What you got in your bag of tricks?
Come take me, erase me
You're fire and I'm gasoline

Let's do something that's front page news
Can't stop thinking about you
Leave your innocence black and blue
Can't stop thinking about you

We can walk on the razor's edge
We can bleed such a pretty red
If we fall then it's just a dream
Danger you and danger me

Come with me, so easy

You're fire and I'm gasoline

Chorus

Chorus

Are you ready?
Come on, tell me
Are you scared
Oh let me, let me undress you to your soul

Come take me, so easy
You're fire and I'm gasoline

Chorus
