What a dream come true I got the biggest crush on you  
My whole body shakes  
I know I'm gonna break  
But God I'm craving for more  
The only thing I really feel is the regret of my heart  
Killing you with kindness  
Like a junkie pushing all his shots

I'll take a bullet in for you  
Or whatever you want me to  
But don't you mistake it for love  
I'll walk the razors just for you  
To show you a thing or two  
But don't you mistake it for love

When you come in view  
I'm keeping cool but man I'm so damn hot for you  
I thought it would be fun  
But then again I think it's turnin' upside down, down,  
down

Many times I realise all the damage that is to be done  
If you wanna see over the edge  
I already feel like a loaded gun

Chorus

So you wanna play?  
You wanna play with fire baby?  
I'll show you fire  
You're lookin' right at it  
Watch me burn into your bloody soul

Many times I realise all the damage that is to be done  
If you wanna go over the edge  
I already feel like a loaded gun

I'll take a bullet in for you  
Or whatever you want me to  
But don't you mistake it for love  
I'll walk the razors just for you  
To show you a thing or two

But don't you mistake it for love

I'll take a bullet in for you babe  
Or whatever you want me to  
But don't you mistake it for love  
I'll walk the razors just for you  
To show you a thing or two  
But don't you mistake it for love
