Please forgive me for calling in the deepest dead of
night
But I found a million ways that I could try to make
things right
I want to bring you more than reason to take me back
again

Let love rain on me like it did before
Let love rain on me I can't take it anymore
Drown me in the see
Let love rain on me

I had walked through miles of desert and drenched
them with my tears
In these days I've been away from I have aged 100
years
So please don't keep me waiting wishing on the stars
above
Just give me your forgiveness — I return it with my
love

Let love rain on me like it did before
Let love rain on me I can't take it anymore
Drown me in the see
Let love rain on me
Let love rain on me like it did before
I have been through fire
I can't take it anymore
Drown me in the see
Let love rain on me

Let love rain on me like it did before
Let love rain on me I can't take it anymore
Drown me in the see
Let love rain on me

Let love rain on me
Let love rain on me
