"Like An Angel"

Visit "[Like An Angel](#)" on MotoLyrics.com

I've had battles with the devil
And it's left a scar or two
Why do I forget my troubles
Whenever I'm with you

Like an angel
Are you an angel
You have saved my heart
And you play your part
Like an angel to me

Yes I met you on my darkest day
When my world turned cold as ice
You lit my cigarette
And you took me away

It felt like paradise

Like an angel
A real angel
Drown me in your light
Take me through the night
You're an angel
I have fallen
From the dark above
Into the arms of love
You're an angel - to me
