"Now Or Never"

Visit "[Now Or Never](#)" on MotoLyrics.com

It's getting late and getting colder
The nights are strange I need to hold ya'
I wait for you for the longest time now
Cos' only you can ease my mind
I see the signs of true disaster
Fear for life but I can't run much faster
Time to stop and smell the roses
Time to love before we lose it

Love me now like no other
Give me hope in my darkest hour
I'll make you feel tonight forever
Stay with me It's now or never
Take my love like no other
I'll give you hope in the darkest hour
I'll make you feel tonight forever
Come with me it's now or never

It's getting late and getting colder
The nights are strange I need to hold ya'
I wait for you for the longest time now
Cos' only you can ease my mind
I see the signs of true disaster
Fear for life but I can't run much faster
Do you see what it's all about
I feel the time is running out

Love me now like no other
Give me hope in my darkest hour
I'll make you feel tonight forever
Stay with me It's now or never
Take my love like no other
I'll give you hope in the darkest hour
I'll make you feel tonight forever
Come with me it's now or never

Love me now it's now or never
Love me now in my darkest hour
