"Shine on"

Visit "[Shine on](#)" on MotoLyrics.com

Was later that night when I got the news
I couldn
Heard somebody say that you drove that night
An ice cold road, your last ride

With tears in our eyes
We were standing, no one spoke
Now we gotta move on without you

But you
And your soul will live on too
And forever it
And where you
And whatever you might do
Yeah forever it
Shining on, shining through

It was hard, so hard, so hard to let go
We
The reason why that it had to be your last ride
This ice cold road took your life

You live in my heart
And your soul will live on too
And forever it
And where you
And whatever you might do
Yeah forever it
Shining on, shining through
Shining through, shine on

Shine on, shine on, shine on
We miss you
