"Coldhearted Lover"

I need a heart of gold
A little rock n' roll
And someone who will understand
I fell this world turns cold
I need a good old soul
Before I'm getting out of hand

Looking for a lover
No cold hearted lover
Rock me like no other
My true metal lover
Looking for a lover
No cold hearted lover
Hold me like no other
My true metal lover

Yeah, I've been up and down
I went through different states
I've got a burning heart that aches
Yeah, I've been all alone
I'm hanging on the phone
I even called the CIA

Looking for a lover
No cold hearted lover
Rock me like no other
My true metal lover
Looking for a lover
No cold hearted lover
Rock me like no other
My true metal lover

And I love to rock
I love to rock with you
And I love a lot
A lot of feeling and soul
I'm looking for you
