(I) Search for something that makes me go on
(I) Search for someone that I can hold on to
(I) Search for something that's so hard to find
In search forever I've been losing my mind

Oh, can you save me before I go insane
Oh, can you hold me and take away my pain

Something's burning in your eyes
A touch away from paradise

[Chorus:]

A kiss of fire can make me survive
With a kiss of fire you'll bring me back to life
Only pure desire can fill me up inside
A kiss of fire can make me come alive, yeah
Bring me back to life

(I) Been searchin' for something that makes me go on
(I) Been searchin' for someone that I can hold on to
(I) Been searchin' for something that's so hard to find
In search forever I've been losing my mind

Something's burning in your eyes
A touch away from paradise

[Chorus]

Kiss of Fire

Your kiss of fire can make me survive
A kiss of fire can bring me back to life
Only pure desire can fill me up inside
A kiss of fire can make me come alive, yeah

With a kiss, a kiss of fire
Kiss of fire
