"Live It"

I'm just a wild, wild one - underneath
Looking back with no regrets - and no apologies
I don't like no-one pushing me
I wanna travel down the highway - forever free

I believe you got to follow your own heart
No matter where you come from
No matter who you are

Live it, like you want it to be
Live it, never give up your dreams
Live it, like you want it to be
You got to live it and love it
And make it everything - you want it to be

You gonna find
It's an ever changin' world
So much uncertainty - so much to learn
You can't let them
Lead you down the road
You gotta keep an open mind and walk it on your own
Gotta spread your wings ... in the sky above
Gotta take care of the ones you love

Live it - like you want it to be
You got to live it - never give up your dreams
Live it - like you want it to be
You got to live it and love it
Give it everything.
