

The Black Dahlia Murder "Climactic Degradation"

Visit "[Climactic Degradation](#)" on MotoLyrics.com

Devastate, leave them weeping in your wake
A family's broken dreams, with glove in hand I
separate
Mutilate them, carve them up, bring them to their knees
The powers of a knife at hand, if it breathes, it fucking
bleeds

Mankind, end time, disgusted with this race
I pluck them from the universe
Pawns on my favorite game

Cut them all down, completely randomized
Never a clue nor a trace is left, identity disguised
I measure joy in suffering, with a rope and blade I
maim
Humiliate these fallen souls, this earth of sick disgrace

Climactic degradation rapture in blood achieved
Suffocate them, rip them, rape them, make them
fucking scream
Orgasmic mutilation, on terror I do feed
Annihilate this bastard race, I'll make them bleed for
me

I'm taking you down with me into this hell of hells
Stabbed in the throat, sputtering blood, my need is
never quelled
You must stand here before me, my judgment ends in
death
Tower above your broken bodies, face speckled in red

How sweet it is to revel in your flesh
I won't stop until the last is dead

Climactic degradation rapture in blood achieved
Suffocate them, rip them, rape them, make them
fucking scream
Orgasmic mutilation, on terror I do feed
Annihilate this bastard race, I'll make them bleed for
me
