

The Black Dahlia Murder "Flies"

Visit "[Flies](#)" on MotoLyrics.com

Down, start digging down your throat
Another string of lies is born
You must exemplify perfection
Bronzing a broken life of shit

You filthy liar
Septic tongue, shit eating grin
Slow internal suicide
An inch within a trigger's pull again
This disease it is your mainstay
It wears its wires within me

Tender tissues scraped away
Of secrets etched in nameless graves
The smell of vomit hangs in the air tonight
Blush, eyeliner, lipstick it's all alright tonight

You filthy liar
Septic tongue, shit eating grin
Love me with your yellowed smile
My flies are hungry for your kiss

Poison me my darling
Graves grow deeper with each passing day
This appalling love bask in your putrid revelry
Beauty lost in between the lashes of sick drunken eye

Like a fool, you have believed
Life of shame
You have fallen completely beneath

And when the curtains finally part
You'll see that everyone is laughing
I am weakness just like you
I'll bury you before you're dead

Cockroach come crawling home, crawl
Slithering through this world of sculpted shit
So thrust those fingers deep my child
It is your burden and your gift

You filthy liar

Septic tongue, shit eating grin
Slow internal suicide
An inch within a trigger's pull again

Poison me my darling
Graves grow deeper with each passing day
This appalling love bask in your putrid revelry
