OH itas flowing through me
Combusting with contempt
Rationality abandoning, chemically lead astray
Stepping outside the confines of this circle
Bane of society-become
I'm about to cross the line, and take a life
Nothing can stop me now
Murderous functioning
The animal within me speaks
Nothing but blood could satisfy - these carnal needs

I am your master, superior - I reign
Poised just above you on this death distorted chain

[mini solo]

The need to kill transcends temptation
I'm sick and in need of blood
Withdrawals haunt me
Sickly baiting my deeds can never be undone

Murderous functioning
The animal within me speaks
Nothing but blood could satisfy - these carnal needs

I am your shepherd cloaked in obscenity
Heed these sickening words, I worship only what you bleed
I am your master superior - I reign
Poised just above you on this death distorted chain.
