When I close my eyes
I can see you reach out to me
In my deepest dream
I can hear you call out to me

Where in the world are you tonight?

Did I Imagine You?
Did I Imagine You?
Are you somebody real?
That I can touch and feel?

Here in my dreams
I'm waiting for you
Just take my hand
I'll carry you through

Now and then it seems
I can hear you climb the stairs
Opening the door
I realise you're not there

Where in the world are you tonight?

Did I Imagine You?
Did I Imagine You?
Are you somebody real?
That I can touch and feel?

Here in my dreams
I'm waiting for you
Just take my hand
I'll carry you through

Here in my dreams
I'm waiting for you
Just take my hand
I'll carry you through
