Ha

Yuh

Dorrough Music

North side, South side, East Coast, West Coast, Mid

West

From my city to yo city (Dallas, Texas)

From yo hood to my hood (say)

Right now, I present, to the world...

Tomeka Pearl

[Hook: Tomeka Pearl]

Put one hand

Cross my heart

Want nothing see me apart

From my home, where I start

I'm too smart and all I know is

You can take me from my hood

But you can't take my hood from me

I rep my hood it's understood

Say what'chu want but all I know is

[Verse 1: Dorrough]

Say

It's a funny day in the hood

And everybody and they momma out I must admit

today I'm kinda feeling good

Ain't nobody beefing, and none of my niggas out up in  
the fed's

So the laws ain't gotta be said, cause it's understood

And you know the game

It ain't nobody showing love unless you gotta name

And don't nobody turn they head unless you hoggin'  
lanes

Ain't nobody breaking bread unless you do the same

You know the game boy

Either you ride on heavy Chevy's or gliding

On the Pirellies and sliding, pulling women to trying

Best believe that we grinding, getting it where I stay

We getting it every way and safe

Before the end of the day all the ballers ballin', All the  
jockers jocking

All the hater's hating, all the boppers bopping  
Old lady cool, probably take her shopping  
Real G's let me hear it if you feel me knocking

[Hook x2: Tomeka Pearl]

You can take me from my hood  
But you can't take my hood from me  
I rep my hood it's understood  
Say what'chu want but all I know is

[Verse 2: Dorrrough]

Check me out, I'm holding, steady like I'm rolling  
Riding thru yo hood I chunk the deuce up like I'm  
posing  
Riding thru yo city rolling gutta like I'm bowling  
First I get it live then shut it down like it's closing  
Early, long wide worly  
Kicking one deep cause you boys act girly  
Or maybe with a sweet big ice cream swirly  
Wrist gold neck, gold teeth, white pearly  
And you can catch me like fish fries on a Saturday  
Ya momma looking good I like the way she worl her  
hunny day  
She hopped up in the Slab, I say 'What'cha wanna do  
today? '  
She looked at me and smiled then said, 'Boy I'm doing  
you today'  
Foreal? I guess that mean that I'm official now  
It took awhile but now they recognize I'm on a mission  
now  
Stop, listen I got that full attention now  
Since I got attention it's the perfect time to mission out  
that

[Hook: Tomeka Pearl]

[Verse 3: Dorrrough]

It don't really matter much where I be  
Never will you find another G like me  
You see a lot of people try to be like me  
But never will you find another G like me  
(Tomeka)  
Man I'm repping my hood for a long, long time  
Never will you find another hood like mine  
I hope that people got it understood like mine  
Cause never will you find another hood like mine

[Hook: Tomeka Pearl]
