Now I'm sliding, it's intriguing  
So young yet too old to learn  
That summer is the thirst  
The river always runs dry first

You're in heaven  
This is heaven now  
You're in heaven

You're in heaven  
This is heaven now  
You're in heaven

As the tides they draw and close  
And the seasons turn again  
Will the moon still wax and wane?  
Will you always color the day?

You're in heaven  
This is heaven now  
You're in heaven

You're in heaven  
This is heaven now  
You're in heaven

Now I'm sliding, it's intriguing  
So young yet too old to learn  
That summer is the thirst  
The river always runs dry first

You're in heaven  
This is heaven now  
You're in heaven
