I've watched an ocean
Dryin' under my feet
And I've scaled the cliff face
Free from gravity

Since we met
We've been basking in the summer sun
We think about it every time
We turn the radio on

Bah, bah, bah, bah
Bah, bah, bah, bah
Bah, bah, bah, bah

People are strange
All around me
But you're not strange
But you're not strange

Since we've met
We've been baskin' in the summer sun
We think about it every time
We turn the radio on

Bah, bah, bah, bah
Bah, bah, bah, bah
Bah, bah, bah, bah

People are strange
All around me
But you're not strange
But you're not strange
