Don't rescue me
When I play with with fire
Don't need to know
Is this desire?

We hold back words
Our eyes just give away
Deny the past
We've come to radiate

In need of some substance
In need of some substance
A little is less than nothing
In need of some substance

The sun might set
Tonight could be the night
And if that's the case
You'll get on all right

But there's no point
In spoiling for a fight
Because were blinded by
The darkest ray of light

In need of some substance
In need of some substance
A little is less than nothing
In need of some substance

In need of some substance
In need of some substance
A little is less than nothing
In need of some substance

Tonight
Tonight
Tonight
Tonight
