"And I'm Still Missing You"

People laugh and love and cry and I'm still missing you
The paper boy still comes around just like he used to
do
But he's a little taller now and I'm still missing you
The leaves are piled against the fence the sky is hazy
blue
There's talk about an early snow and I'm still missing
you I'm still missing you
The swirling winds of time bring many changes
But for me they only blow across the surface of my
heart
And they can't cool this memory of you that burns so
deep inside me
Dick and Jane came by today their baby's almost due

People laugh and love and cry and I'm still missing you
I'm still missing you
