He's just leadin' you on honey he'll be gone
Before the ring on your finger turns green

Your new love is the playboy kind he's not looking for
the ties that bind
He'll leave you with a tortured mind before the ring on
your finger turns green
He's just leadin' you...

He's fickle cheap and phoney too just like the ring he
gave to you
I know cause I've been through it too when the ring on
my finger turned green

He's just leadin' you...
Before the ring on your finger turns green
