No one is worth all the hurt you've put me through  
No one is worth all the tears I've cried for you  
No one is worth all the heartaches that I knew  
No one is worth this much no one but you  
No one but a fool would love so hopelessly no one but a  
fool would ask for misery  
And no one but a fool would be so deceive  
No one would still love you no one but me  
But no matter what you do I'll keep on loving you  
forever mhm  
No one is worth all the hurt you've put me through  
No one is worth this much no one but you
