(Oh, what is this?
No, no, no, no, rock'n rollin' here Buddy
It's got to be country.)

A rock'n roll drummer in a country girl's band
Tryin' to make a livin' playin' one night stands
Travelin' all over in a super customized Greyhound bus
Some think he's heavy some think he's high
he's puttin' 'em on with his shake'n jive
And some still wonder 'bout the rock'n roll drummer
In a country girl's band.

To him it were a way of livin' were a way to stay alive
He swots rock'n rollin' hungrys for that country apple
pie
Now they're gettin' in together everything's alright
A rockin' 'em country songs and lovin' at night.
Some still wonder 'bout the rock'n roll drummer
In a country girl's band.

Yeah, some still wonder 'bout the rock'n roll drummer
In a country girl's band.

(There he goes again he's back again no oh no Buddy
no no
Look what he's done to my soul oh no turn him off...)
