(Buffy Sainte Marie)

Take my hand for awhile
Explain it to me once again
Just for the sake of my broken heart
Look into my eyes and maybe I will understand.

How the love I counted on was never there
You see I've thought that you might love me
So you caught me it seems off valums with the heart
that's full
Of love and pretty dreams that two should share.

--- Instrumental ---

And so I know but please before you go
Take my hand for awhile
Explain it to me once again
Just for the sake of my broken heart...
