There's a story goin' 'round
I've heard it now all over town
The two of us is here through
And I'm afraid to ask of you

Is there a reason? Is there a reason?
For all the words heard and said
Should I forget it? Say it's just gossip
And let it pass right though my head

Yes, there's a story goin' 'round
Could it be true?
Should I ask you or just pretend
It wasn't said?

Is there a reason? Is there a reason?
For all the words heard and said
Should I forget it? Say it's just gossip
And let it pass right though my head

Yes, there's a story goin' 'round
Could it be true?
Should I ask you or just pretend
It wasn't said?

Yes, there's a story goin' 'round
I've heard it now over town
